NSWC Dahlgren Site is a premier research and development center that serves as a specialty site for weapon system integration. Engineers and scientists focus on providing research, development, test and evaluation, analysis, systems engineering, integration and certification of complex naval warfare systems related to surface warfare and strategic systems.

NSWC Dahlgren Site is located in King George County, VA and is within a one hour drive to Washington, DC.

CDSA Dam Neck Site provides force-level integrated and interoperable engineering solutions, mission critical control systems, and associated testing and training technologies to meet maritime, joint, special warfare and information operation requirements related to surface warfare.

CDSA Dam Neck Site is located in Virginia Beach, VA.

Come visit our booth at the UMW Career Fair on Thursday, March 20, 2014!
